Notes:
- Producer fees typically equate to less than 1/50th of a cent per MMBtu.
- Producer fees are payable by the Registrant of the Facility and are invoiced quarterly.
- Fees exclude the costs of independent third-party audits, which will be agreed separately by operator and auditor.
- There are no additional fees for MiQ Certification.
- EO100™ fees exclude registration and annual fees associated with certification.
- For facilities jointly certified under MiQ and EO100™, a single combined certificate will be issued under both standards for each MMBtu of gas.
- If only one certification exists (MiQ or EO100™), only the quarterly producer fees associated with the certification attained will be charged.
